EDUCATION

Bachelor of Commerce (B.Com)

MVM College of Commerce & Science
2020 – 2022

Manual Software Testing

SQUAD Infotech Pvt. Ltd.
2023

FEATURED PROJECTS

NON-PROFIT PLATFORM

Donation Management Platform

Tested donation and payment workflows including recurring transactions, failure scenarios and business-rule validation across donor-facing and admin interfaces.

Payment Testing | Regression | API Validation

BUSINESS MANAGEMENT

Management & CRM Platform

Performed end-to-end QA across CRM modules, financial workflows, role-based access control, reporting, and user permission management.

E2E Testing | CRM Testing | RBAC Testing

LOGISTICS & SUPPLY CHAIN

Logistics Management Platform

Tested shipment and logistics workflows, status updates, business rules, data consistency and regression scenarios.

Functional Testing | Real-Time Data | Regression

INTERNATIONAL PLATFORM

Multi-Currency Donation Platform

Tested donation workflows involving multi-currency scenarios, transaction behavior, validation rules and regression coverage.

Multi-Currency | Payment Testing | API Testing

INDEPENDENT QA PROJECT

Automation Exercise

Playwright-based QA automation for e-commerce application covering UI workflows, API automation, regression scenarios, and checkout flows using Page Object Model and GitHub Actions CI.

Playwright | API Testing | Page Object Model | GitHub Actions

INDEPENDENT QA PROJECT

ERPNext QA Automation

Independent QA automation project demonstrating Playwright-based UI testing of ERPNext workflows using Page Object Model architecture and GitHub Actions CI.

Playwright | Page Object Model | GitHub Actions

TOOLS & TECHNOLOGIES

Playwright · Postman · Jira · GitHub Actions · Browser DevTools · Manual Testing · API Testing · Page Object Model · Git · Cross-Browser Testing · Responsive Testing · Bug Tracking
